## What They're Saying

The cast of CW's hit new show **"Privileged"** loves Pevonia Botanica's Ligne Tropicale De-Aging Mist and Ligne Clarifyl Spot Treatment. "The pineapple-papaya smell of the De-Aging Mist is amazing and the Spot Treatment is great to put on after I cleanse the actors' faces as it works quickly to dry out new pimples," says makeup artist, Marianna Elias.

"[I am] a big fan of Pevonia. I especially love the Ligne Tropicale Body Balm and Ligne Lavandou Soothing Propolis Concentrate."

**Naomie Harris**, star of *Pirates of the Caribbean*

Makeup artist, Emily Katz, loves the **Pevonia Botanica** Ligne Yeux "C" Evolutive Eye Gel and uses it on the set of **"Lost"** and other new shows. "I use the eye gel to clean up and refresh under the eye before reapplying concealer so it doesn't build up and get 'cakey'. This keeps the under eye area skin fresh and less crepe-y as well."

**Pevonia Botanica** continues to provide unprecedented skincare while protecting and preserving the planet for future generations to come.
